Board of County Commissioners
200 W Broadway
Missoula, MT 59802

Dear County Commissioners Strohmaier, Curtiss and Rowley:

The citizens of Missoula County have a long and deep tradition of caring for our community and the lands and rivers of our county. As citizens we value access to waterways and open lands. Our communities are shaped by our shared values related to conserved lands, as well as by the recreational and economic opportunities provided by publicly accessible open space. It is vital to the wellbeing of communities across the county and to future generations to continue to invest in conservation of open spaces. **Thus, we strongly request that in your capacity as County Commissioners you place a measure on the November 2018 ballot for a \$15,000,000 open space bond.**

Community members, landowners, and both non-profit and governmental entities are ready to work in partnership with the county to protect Missoula County's lands and waters and ensure that public funds are stretched as far as possible. The 325 county residents who have signed below believe passionately in the necessity of this measure and support the bond so we can conserve and improve our open space lands, improve water quality by protecting forests and grasslands that provide natural filters for our water, conserve working farms and ranches that provide local food, and protect the river corridor.

The 2006 Open Space Bond is nearly gone, yet there is still critical conservation work to do for future generations. A new open space bond ensures that Missoula County's citizens maintain our commitment to open space conservation. It is a tool for our communities to use in concert with long-term economic growth to ensure that Missoula County remains the best place to live, work, and raise a family for generations to come.

The open space bond allows our communities to respond quickly to timely opportunities to protect and conserve the places that define our way of life. A new bond can:

- Advance the Community Wildfire Protection Plan by buffering developed areas from wildfire and reducing residential development on forested land adjacent to public lands.
- Help achieve the goal of the 2016 Missoula County Growth Policy to "conserve vital natural resources including surface and ground water, air quality, agricultural resources, iconic landscapes, fish and wildlife species and their habitats, and native plant communities."

- Improve public access to the Clark Fork River from downtown Missoula to Frenchtown to Bonner and beyond.
- Create and maintain miles of new trails on Mount Dean Stone and Marshall Mountain.
- Protect the future of rural livelihoods for family ranches and farming operations.
- Promote healthy active communities, also a priority of the 2016 Growth Policy.

Thank you for considering this measure and allowing Missoula County to continue our legacy of conservation and stewardship.

Sincerely,

The following citizens of Missoula County
